

### **I never made an investment choice so why am I affected?**

For new Super Saver members, when you joined Vision Super, if you didn't make an investment choice you were automatically invested in the Balanced Growth investment option. Balanced Growth is made up of the different asset classes (cash, fixed interest, Australian and international shares and alternative assets). The asset allocation in the Balanced Growth investment option is carefully constructed by the Trustee taking into account long-term returns and providing a balance between risk and return.

A default option is chosen to ensure members who don't make a choice are still invested in a way that provides some capital growth.

So although you may not have made an investment choice, you are in a carefully constructed option, which has served members well for the past 60 years, maximising returns without unacceptable risk.
